

Hug For The Camera

Hundreds Gather To Celebrate The Life Of Sarah Becking

Some of the region's finest photographers joined forces on Oct. 12 to create a joyous memorial to their friend Sarah Becking, who succumbed to cancer last summer. Hold That Hug attracted 147 families to Stewart Park where they were photographed while enjoying a day of play. It was a picture-perfect memorial to Becking, whose passion for photography was eclipsed only by her devotion to her family. She believed every family should pause for a family portrait. You can see from these photos contributed by the event organizers that Becking's dream will live through these images for generations.
